Subject: Re: [External] FW: Notification

Adam / Kendra - bringing in Brent (already CCed) and Mike on this.

Morgan - can you let all the EPA and TCEQ folks in Unified Command know who at TCEQ raised this issue with you? Adam and Kendra are the on-site oversight for this incident. We have permission (before this issue) to take the CERCLA waste to SWSYs per the email below.

I assume it's a misunderstanding among folks at TCEQ, just want to get to the source of the concern. Thanks.

Adam - noted, no additional liquids are scheduled at this time.

Thanks for the cc.

Suggest no further liquids go there from either site until the permit issue is resolved.

Morgan,

TCEQ is copied on this message. You may forward to TCEQ personnel, as needed.

Thank you. Is ITC ok with me forwarding to TCEQ? It will help expedite the approval.

Morgan,

Please see below communication from EPA indicating approval for Southwest Shipyard.

Hope this helps,
Jim

Mike,
Be advised that per the forwarded email, Southwest Shipyards is on the list of acceptable facilities.

Please share a copy of the facility approved disposal profile and waste characterization sheet for the first waste that is planned to be taken there for disposal.

Hello Adam & Gary, yes Southwest Shipyards is acceptable for CERCLA waste. A determination letter will be sent to the facility.

Ron,
Much appreciation for getting that letter out today.
Now that we have a response from state, can I get a confirmed notification from you that SW is acceptable?

Thank you again
Adam
